## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, 11-13, 19, 23-26 and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Yu-WO98/23237.

Yu-'237 (Fig. 1-2; pages 1-9, for example) discloses devices such as micro-cannula/stent 10 (Fig. 1), outer sheath 32, inner member 34 (Fig. 2) and a method of using the devices substantially as recited in the claims.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6-10, 14-18, 20-22, 27-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yu-WO98/23237.

As to claims 6-10, 14-18, 20-22, 27-29, Yu-'237 discloses substantially the claimed invention, except for the minor modifications as recited in claims. However, the minor modifications as recited in the claims are well known in the art. It would have been obvious to one of ordinary skill in the art to modify the devices and method of Yu-'237 as recited in the claims, as these modifications are well known in the art.
